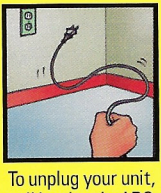
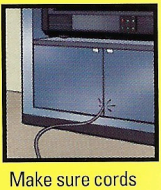
"I don't know which should get fixed first: the N64® or the dog?"

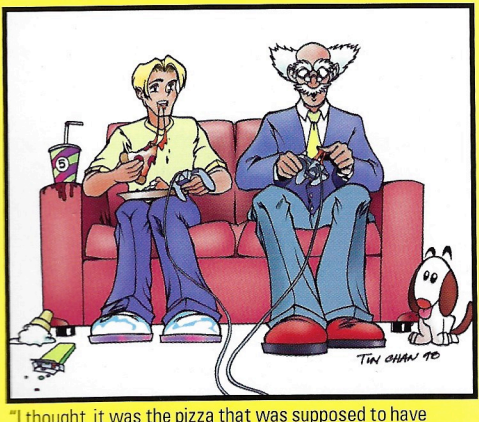
DO NOT allow your pet to play with or chew the cord.



To unplug your unit, pull by the plug! DO NOT yank the cord.



Make sure cords aren't closed in the doors of your entertainment center—over time they'll weaken.



"I thought it was the pizza that was supposed to have everything on it!"

Sticky Controller buttons? Clean with a damp toothbrush.

Be sure the toothbrush isn't sopping wet, then scrub between the buttons.

Let your clean Controller dry for a few hours before using.

What can YOU do to make sure your valued Nintendo® products are always in tip-top condition?

That's easy!

Simply use these easy-to-remember tips from the pros:

1. Keep food and liquids away from your Nintendo products.

2. DO NOT hit, disassemble or try to repair your Nintendo components. Doing so voids your warranty.

3. Use only Nintendo accessories, otherwise, you may void your warranty. Look for the "Official Nintendo Seal of Quality."

4. Always check the Game Pak edge connector for foreign material before use.

5. To prevent dirt or dust from getting into the Game Boy,® always leave a Game Pak loaded (with the power off), when not in use.

6. Turn the power switch off before loading or removing a Game Pak. Load only Game Paks designed for your system. Insert completely, without force.

7. Before use, clean all Game Paks that you rent or borrow, and regularly clean your Nintendo products and all Game Paks that you own. Be sure to use Nintendo cleaning kits only— look for the "Official Nintendo Seal of Quality." Cleaning kits are available at all NINTENDO AUTHORIZED REPAIR CENTER℠ locations and at most retailers.

8. When disconnecting any plugs, first turn the Nintendo system power off. Then carefully pull by the plug itself rather than by the cord. DO NOT step on, sharply pull or bend any wires or cables.

9. DO NOT leave your Nintendo products in a humid place, on the floor or in any location where it may collect dirt, dust, lint, etc.

10. DO NOT rapidly turn the power switch on and off. This may cause backed up Game Paks to lose your stored information.

⚠ EPILEPSY WARNING

READ THIS NOTICE BEFORE YOU OR YOUR CHILD USES ANY VIDEO GAME

A very small portion of the population has a condition that may cause them to experience epileptic seizures or have momentary loss of consciousness when viewing certain kinds of flashing lights or patterns that are commonly present in our daily environment. These persons may experience seizures while watching some kinds of television pictures or playing certain video games. Players who have not had any previous seizures may nonetheless have an undetected epileptic condition. If you or anyone in your family has experienced symptoms linked to an epileptic condition (e.g., a seizure or loss of awareness), immediately consult your physician before using any video games. We recommend that parents observe their children while they play video games. If you or your child experiences any of the following symptoms: dizziness, altered vision, eye or muscle twitching, involuntary movements, loss of awareness, disorientation, or convulsions, DISCONTINUE USE IMMEDIATELY and consult your physician.

FOLLOW THESE PRECAUTIONS WHENEVER USING VIDEO GAMES:

- When using your NES® or Super NES® or Nintendo® 64 do not sit or stand too close to the television screen. Play as far back from the screen as possible.
- Play video games on the smallest available television screen.
- Do not play if you are tired or need sleep.
- Always play in a well-lit room.
- Be sure to take a 10 to 15 minute break every hour while playing.

⚠ REPETITIVE STRAIN WARNING

Some people may experience fatigue or discomfort after playing for a long time. Regardless of how you feel, you should ALWAYS take a 10 to 15 minute break every hour while playing. If your hands or arms become tired or uncomfortable while playing, stop and rest. If you continue to experience soreness or discomfort during or after play, listen to the signals your body is giving you. Stop playing and consult a doctor. Failure to do so could result in long-term injury. If your hands, wrists or arms have been injured or strained in other activities, use of your system could aggravate the condition. Before playing, consult a doctor.

⚠ BATTERY PRECAUTIONS / WARNING

FAILURE TO FOLLOW THE FOLLOWING INSTRUCTIONS MAY CAUSE THE BATTERIES TO MAKE "POPPING" SOUNDS AND LEAK BATTERY ACID, RESULTING IN PERSONAL INJURY AND DAMAGE TO YOUR GAME BOY OR ACCESSORY. IF BATTERY LEAKAGE OCCURS, THOROUGHLY WASH THE AFFECTED SKIN AND CLOTHES. KEEP BATTERY ACID AWAY FROM YOUR EYES AND MOUTH. CONTACT THE BATTERY MANUFACTURER FOR FURTHER INFORMATION.

- Do not mix used and new batteries in your Nintendo product (replace all batteries at the same time).
- Do not mix battery types (do not mix alkaline and carbon zinc batteries or mix brands of batteries).
- Do not put the batteries in backward (positive (+) and negative (-) ends must face the proper direction).
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the battery light will become dim and the game sounds will become weak. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the unused Nintendo product or accessory for long periods.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using your Nintendo product, always slide the power switch off.
- Do not dispose of batteries in a fire. Do not recharge the batteries.
- Do not use nickel cadmium batteries.

⚠ PROJECTION TELEVISION CAUTION

DO NOT USE WITH FRONT OR REAR PROJECTION TV

Do not use a front or rear projection television with your Nintendo Entertainment System® ("NES®"), Super Nintendo Entertainment System® ("Super NES®"), Nintendo 64 system ("N64®"), or any NES, Super NES or N64 games. Your projection television screen may be permanently damaged if video games with stationary scenes or patterns are played on your projection television. Similar damage may occur if you place a video game on hold or on pause. If you use your projection television with NES, Super NES or N64 games, neither Nintendo nor any of Nintendo's licensees will be liable for any damage. This situation is not caused by a defect in the NES, Super NES, N64, or NES, or in Super NES or N64 games; other fixed or repetitive images may cause similar damage to a projection television. Please contact your TV manufacturer for further information.
